Hey Gary,

Do you know if both are being used?

Does anyone know; Are both dispersants (Corexit 9527 and Corexit 9500) being used?

Danny

I've been asked as to whether or not we can/should sample for the constituents of these dispersants being used by BP. I contacted R6 and they confirmed that they have *not* done any sampling/analysis for these but are being asked the same question.

Gary, et al., Can you guys run analysis for these constituents? What would it take?

Below is the MSDS for the dispersents.

Pleas let me know ASAP.

Doug
